Personal Performance Assessment DEVELOPMENT COMMENTS (FOCUS)

Attention To What Is Happening: (Focus/Strength)

You have the ability to see and understand what is happening in a practical, pragmatic way which builds the ability to focus on things in such a way that you are able to identify both the flaws in things as well as the positive, functional worth of things.

Ability To Act Consistently: (Focus/Strength)

You have the ability to see and understand what course of action is best for you. However, you are uncertain about which course of action is best for you. This combination of clarity about goals and uncertainty about when to act can lead you to shift from being inner directed, energetic and filled with an urgency to act to delaying your decisions and actions.

Self Control: (Focus/Development Area)

You do not always maintain a sense of balance in your ability to identify and respond to problems, potentially leading you to react impulsively in stressful situations. You may spend too much time and energy on unnecessary problems or become impatient and feel a need to act before all of the facts and options have been evaluated.

Ability To Manage Stress: (Focus/Development Area)

You currently do not see or value yourself as well as you do the world around you. As a result you are subject to anxiety and stress effects. Seek feedback to identify development steps to reduce this stress and spend time and energy doing things you like to do, which can help to relieve the anxiety and stress symptoms.

Ability To Set Realistic Goals: (Focus/Strength)

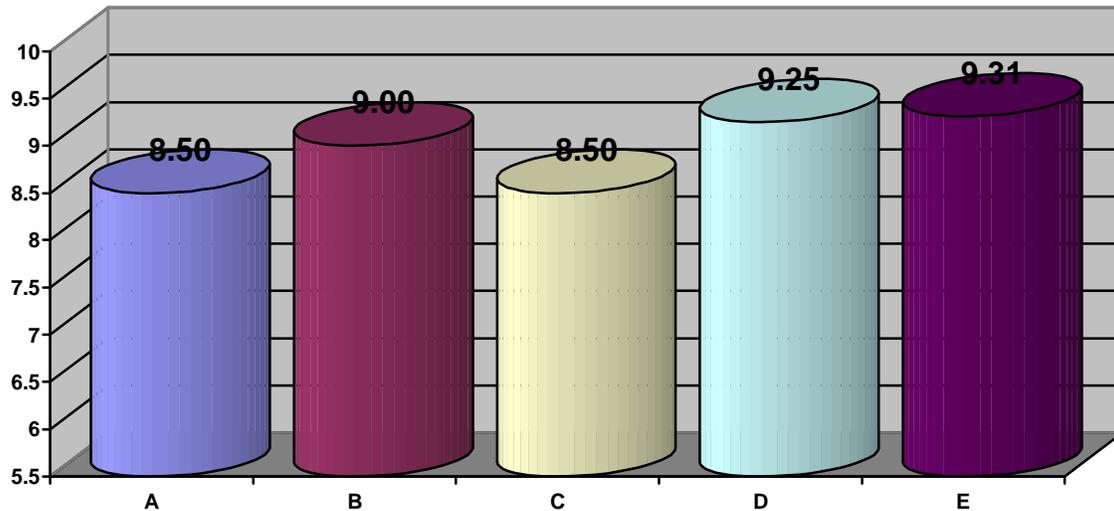

You have the ability to see and understand how to set goals which will reflect a direction which is both motivating and rewarding. However, the uncertainty you are currently experiencing about which direction is best for you can lead to delays in your decisions and actions.

Flexibility: (Focus/Strength)

You have the ability to see and understand what is worth your personal commitment and energy. Moreover, you have a willingness to see and accept the mistakes that you make and to change directions when you are not attain the results which you desire.

Personal Performance Assessment PERSONAL PERFORMANCE PROFILE

FIRE

FIRE: These capacities measure the ability to marshal drive and energy for completing tasks and goals.

Low Risk (Excellent ability to utilize the capacity and translate the talent into decisions; reduces the potential for errors and mistakes)	8.8 to 10.0
Situational Risk (Very good ability to utilize the capacity especially in well defined areas; however, there are specific situations that can interfere with the translation into decisions)	8.5 to 8.79
Conditional Risk (Limited access to the capacity indicating actual conditions that will increase the potential for mistakes and errors and restrict the transfer into decisions)	8.2 to 8.49
Real Risk (Restricted access to the capacity indicating the ability is consistently unavailable and individuals are subject to mistakes and errors in judgment)	6.0 to 8.19

A) Initiative (8.50) — This capacity measures the ability to direct one's energies toward the completion of a task with a sense of urgency and mission.
B) Drive Toward Goals (9.00) — This capacity measures the ability to be excited about and committed to one's goals and to marshal energy to push toward the attainment of these goals.
C) Need To Achieve (8.50) — This capacity measures how strongly one needs to attain success to feel valuable and worthwhile.
D) Ambition (9.25) — This capacity measures the ability to set inner ideals which become the standard for achievement and success, a strong sense of drive toward excellence.
E) Willingness To Take Action (9.31) — This capacity measures the ability to pay attention to the achievement of concrete results. Attaining results is a major factor pushing one to action.

Personal Performance Assessment DEVELOPMENT COMMENTS (FIRE)

Need To Get Things Done: (Fire/Development Area)

You have a cautious, skeptical attitude toward practical thinking which can cause you to be hesitant about deciding or acting. As a result of this skepticism, you may not feel an urgency to act based on a need for creating a practical result. Develop a strategy for making decisions which will help you identify when immediate action is needed.

Drive Toward Goals: (Fire/Strength)

You are in transition with respect to inner goals and ideals which guide your actions and have a sense of skeptical disregard for outer goals and structure. Seek feedback to evaluate what you want to accomplish and what you are willing to commit your energies to accomplish.

Need To Achieve: (Fire/Development Area)

You tend not to give yourself enough credit, to blow up your imperfections and to build self fulfilling hypotheses which can lead to either a fear of success or a fear of failure. Spend time with people who make you feel good and help you see and appreciate your past successes and your present opportunities.

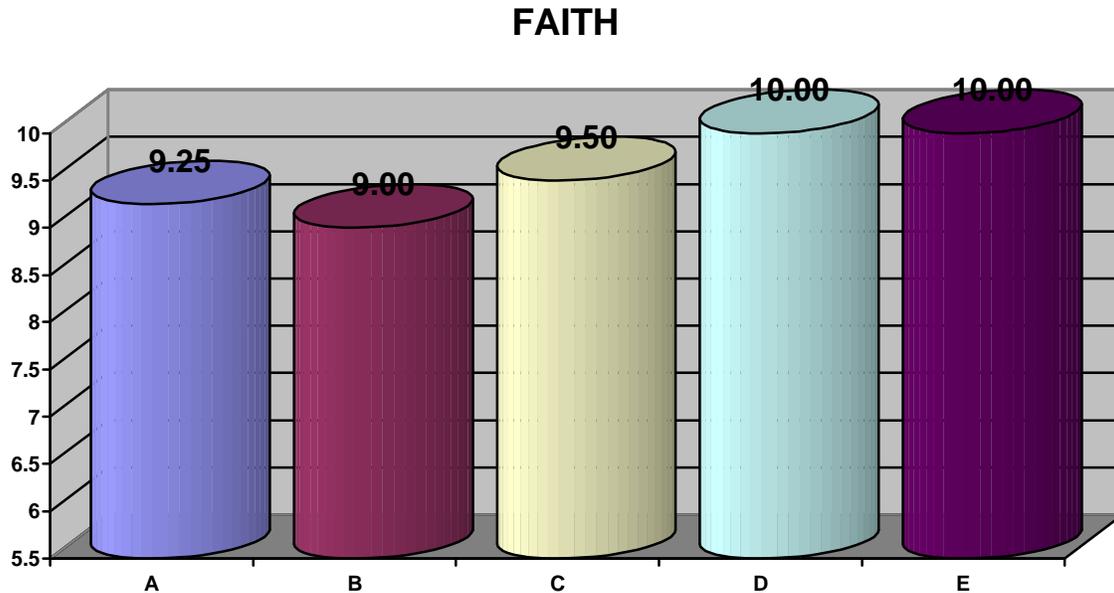

Ambition: (Fire/Strength)

You have the ability to see and understand how to utilize your inner self goals and ideals which define what you ought to be and which in turn form the core of your personal ambition to succeed. However, you are currently uncertain about which direction is best for you and may not fully utilize this drive center as a source for actions and decisions.

Willingness To Get Things Done: (Fire/Strength)

You have the ability to identify those goals, ideals, actions and activities which not only give your life a sense of meaning and purpose but also provide you a sense of urgency to act. However, you are currently indecisive about which direction is best for you. Your indecisiveness about the future can lead you to delay your decisions.

Personal Performance Assessment PERSONAL PERFORMANCE PROFILE

FAITH: These capacities measure a person's belief that the best can and will happen combined with the ability to stay on track regardless of circumstances.

Low Risk (Excellent ability to utilize the capacity and translate the talent into decisions; reduces the potential for errors and mistakes)	8.8 to 10.0
Situational Risk (Very good ability to utilize the capacity especially in well defined areas; however, there are specific situations that can interfere with the translation into decisions)	8.5 to 8.79
Conditional Risk (Limited access to the capacity indicating actual conditions that will increase the potential for mistakes and errors and restrict the transfer into decisions)	8.2 to 8.49
Real Risk (Restricted access to the capacity indicating the ability is consistently unavailable and individuals are subject to mistakes and errors in judgment)	6.0 to 8.19

A) Belief In Oneself (9.25) — This capacity measures the ability to develop and maintain inner strength based on the belief that one will succeed.
B) Belief In The Future (9.00) — This capacity measures the ability of to maintain one's direction in spite of the obstacles and to stay on target regardless of circumstances.
C) Belief In The Present (9.50) — This capacity measures's one's ability to feel comfortable and competent about what one is doing and how one is being viewed in society.
D) Attitude Toward Oneself (10.00) — This capacity measures the ability to consistently maintain a positive attitude toward oneself.
E) Overall Optimism (10.00) — This capacity measures the ability to maintain consistently positive attitudes which expect that the best can and will happen.

Personal Performance Assessment DEVELOPMENT COMMENTS (FAITH)

Belief In Oneself: (Faith/Strength)

You have the ability to develop and maintain realistic confidence in your capacity to perform and to live up to social and role images and expectations. Rely on the strength and realistic nature of your confidence to get things done and promote optimism around you.

Belief In The Future: (Faith/Strength)

You have the ability to identify your personal goals and ideals which can act not only as a source of strength during difficult times but also as a source of energy and direction for pushing ahead. However, you are currently somewhat uncertain about which direction is best and this uncertainty may lead you to delay action.

Belief In The Present: (Faith/Strength)

You are confident that what you are doing not only is what is best for you but also that your social/role accomplishments will serve a useful function for yourself and for society. This confidence and feeling of personal competence will build an urgency to get things done and to push ahead with energy and commitment.

Self Attitude: (Faith/Strength)

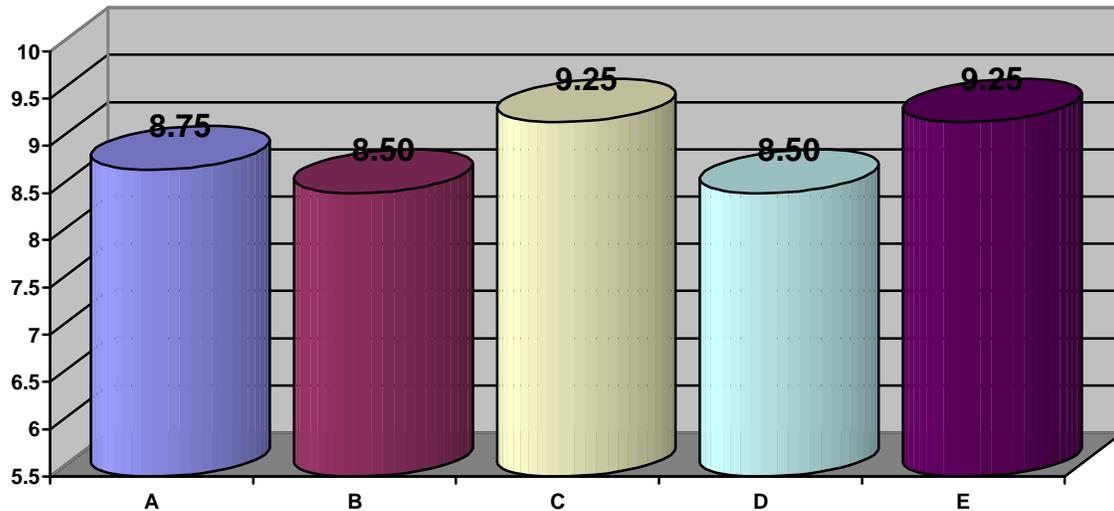

You have the ability to maintain an extremely positive and optimistic overall personal attitude which builds an expectation that the best can and will happen to you. As a result of your optimism, you have the ability to deal with personal setbacks, misfortunes and mistakes as opportunities for development rather than as failures.

Overall Optimism: (Faith/Strength)

You have a very dynamic, positive overall attitude which can overcome any temporary feelings of anxiety, despair or negative expectations and can generate a strong expectation that the best is possible for you. This sense of overall optimism can serve as a beacon to keep you pushing ahead and on track especially in difficult situations.

Personal Performance Assessment PERSONAL PERFORMANCE PROFILE

FEAR

FEAR: These capacities measure a person's sensitivity to exposure and criticism when they do not measure up to expectations or complete tasks and goals.

Low Risk (Excellent ability to utilize the capacity and translate the talent into decisions; reduces the potential for errors and mistakes)	8.8 to 10.0
Situational Risk (Very good ability to utilize the capacity especially in well defined areas; however, there are specific situations that can interfere with the translation into decisions)	8.5 to 8.79
Conditional Risk (Limited access to the capacity indicating actual conditions that will increase the potential for mistakes and errors and restrict the transfer into decisions)	8.2 to 8.49
Real Risk (Restricted access to the capacity indicating the ability is consistently unavailable and individuals are subject to mistakes and errors in judgment)	6.0 to 8.19

A) Fear Of Disappointing Others (8.75) — This capacity indicates the degree to which one can be objective about others without allowing personal feelings, positive or negative, to get in the way of making decisions.
B) Fear About Performing To One's Best (8.50) — This capacity measures the effect of social/role frustration and dissatisfaction on one's ability to consistently feel competent and functional.
C) Fear About Realizing Goals (9.25) — This capacity measures the effect of setting personal goals which are either unrealistic or do not demand the best.
D) Fear About Fitting In (8.50) — This capacity measures the importance of being a member of a team and working in a comfortable place where one is liked and accepted.
E) Fear About Being Worthy (9.25) — This capacity measures the ability to see and appreciate one's unique worth and individuality, to see and understand 'Who One Is' apart from social/role or ideal self images and expectations.

Personal Performance Assessment DEVELOPMENT COMMENTS (FEAR)

Fear Of Disappointing Others: (Fear/Development Area)

You tend to shift from being too concerned about others to selectively opening up to those who meet your expectations and those who have a high social profile. As a result, you are likely to be oversensitive to what others think or say about you. Seek help from others to help you develop techniques for realistic and objective evaluation of others.

Fear About Performing To One's Best: (Fear/Development Area)

You are currently placing too much emphasis on social/role accomplishments. As a result you either expect too much from your role or too much from yourself. You are likely to lack a sense of urgency to push ahead inhibiting your ability to get things done. Seek feedback to help you decide what you can do, what you want to do and what you are willing to do.

Freedom From Fear About Realizing Goals: (Fear/Strength)

You have the ability to clearly identify your personal goals. Moreover, you have a strong sense of personal commitment to these goals and plans. As a result, you have the ability to stay on track and complete whatever you set out to do and be satisfied and fulfilled by your successes and undaunted or delayed by your failures and mistakes.

Fear About Fitting In: (Fear/Development Area)

You tend to self depreciate and not give yourself enough credit to the point that you are susceptible to a fear of not living up to your own expectations or to the expectations of others. Seek feedback from others to boost your self worth and enroll in a workshop on self development which will help you develop positive and realistic self attitudes.

Freedom From Fear About Being Worthwhile: (Fear/Strength)

You have a keen appreciation of your uniqueness and individuality and a realistic assessment of your ability to perform, your strengths and talent, as well as your limitations. Your self awareness and self worth can act as an anchor in difficult times and can help you maintain your worth even when things do not work out as expected.
